

## **Socially Responsible Investment Collaborations**

As part of our commitment toward social responsibility and environmental stewardship, we support the Task Force for Climate Related Financial Disclosures (TCFD) and are an active member of Climate Action 100+ and signatory to the UN Principles of Responsible Investment (UNPRI).

### **Principles for Responsible Investment (PRI)**

In signing the PRI, CenterSquare as an investment manager publicly commits to adopt and implement all six Principles below, where consistent with our fiduciary responsibility:

1. Incorporate Environmental, Social and Corporate Governance (ESG) issues into investment analysis and decision-making processes;
2. Be an active owner and to incorporate ESG issues into our ownership policies and practices;
3. Seek appropriate disclosure on ESG issues by the entities in which we invest;
4. Promote acceptance and implementation of the Principles within the investment industry;
5. Work with the PRI Secretariat and other signatories to enhance their effectiveness in implementing the Principles;
6. Report on our activities and progress towards implementing the Principles.

### **Task Force on Climate-Related Financial Disclosures (TCFD)**

We support the recommendations of the TCFD to develop voluntary, consistent climate-related financial risk disclosures for use by companies in providing information to investors, lenders, insurers, and other stakeholders. The Task Force considers the physical, liability, and transition risks associated with climate change and what constitutes effective financial disclosures across industries.

### **Climate Action 100+**

We are signatories of Climate Action 100+, which is a five-year investor-led initiative to engage over 100 of the world's largest corporate greenhouse gas emitters to curb emissions, strengthen climate-related financial disclosures, and improve governance on climate change risks. As part of this initiative, we collaborate with other investors around the world to directly engage with companies in our investment universe on these issues.
